

## **GTT Secure Connect Wins TMC's SASE Product of the Year Award**

*Annual award recognizes and honors companies that have developed exceptional communications products and services*

**McLean, Va., March 7, 2023** — [GTT Communications, Inc.](#), a leading global provider of managed network and security services to multinational organizations, announced that its [Secure Connect](#) service won the TMC 2023 INTERNET TELEPHONY SASE (Secure Access Service Edge) Product of the Year Award. The annual awards recognize products for their innovation, excellence and value to customers.

GTT Secure Connect, based on the SASE framework, extends and strengthens the protection of enterprise networks connecting to the internet and accessed by users from any location. The service leverages a single cloud platform for agile and ubiquitous delivery of network security, offering a range of features that include CASB (Cloud Access Security Broker), SWG (Secure Web Gateway), ZTNA (Zero Trust Network Access) and FWaaS (Firewall as a Service) capabilities.

“GTT is proud to receive this industry recognition of the strength of our Secure Connect SASE service,” said Todd Kiehn, senior vice president, Strategy & Product, GTT. “We recognize the importance of integrating security into software-defined wide area networks (SD-WAN) to protect internet VPNs, cloud applications and remote workers, and Secure Connect offers a cloud delivery model for improved scalability and the ability to extend the security perimeter to any network endpoint.”

Last year, [GTT's Managed SD-WAN](#) service won the TMC's SD-WAN Product of the Year Award. GTT Managed SD-WAN provides enterprises with a more agile next-generation networking solution that improves application performance, enhances network control and visibility, and optimizes bandwidth.

### **About GTT**

GTT is a managed network and security services provider to global organizations. We design and deliver solutions that leverage advanced cloud, networking and security technologies. We complement our solutions with a suite of professional services and exceptional sales and support teams in local markets around the world. We serve thousands of national and multinational companies with a portfolio that includes SD-WAN, security, Internet, voice and other connectivity options. Our services are uniquely enabled by our top-ranked, global, Tier 1 IP backbone, which spans more than 260 cities on six continents. The company culture is built on a customer-first service experience reinforced by our commitment to operational excellence and continuous improvement in our business, environmental, social and governance practices.
